I liked the fact that she knew what was going on with the classes/teachers at my daughter's program at GW. I wish she had a bit more success on some of her quizzes and tests.

6/11/2013 17:30:54	Test Prep	5	5	5	5	5	4	5	4	5	5	We had a great experience with Chava in tutoring for ACT and SAT exams. She was thoughtful, knowledgeable, able to work with our son easily, and had great communications. He did not do as well as he had hoped in some of the tests, but will continue to work at it over the summer. We appreciate the resources that Peak offers and have heartily recommended you to other families.

He seemed to really care and was very focused on improving our daughter's grade and confidence. His notes/summaries after every tutoring session were informative and notified us if something was amiss. We were very pleased with his tutoring services and would highly recommend him and Peak's services to others.

6/11/2013 20:34:51	Content Tutoring	5	5	5	5	5	5	5	3	5	5	The academic goals for one of our children were not reached but that was our child's fault not the teacher. She did all she could. The child did not. My advice would be to reword the question to get clear information for you. For example, "The teacher did all he/she could to help your children reach the academic goals that you wished." I could answer that question as a "5" even though our goals were not met because of our child's efforts which were not the teacher's fault.

Michael had created a huge mountain of work to do and we got to Peak too late. We, including Michael, look forward to a much more successful year next year. We will possibly use Peak some, but he is already lined up with his advisor for help on a weekly basis.  My thanks go to Josh and the rest of the Peak team.

6/16/2013 7:20:45	Study Lab, Academic Coaching	3	3	4	4	5	3	4	2	3	3	This program was helpful in that it took the load off of my husband and I. We did not, however, see any long term changes in our son's academic performance and study habits.

6/18/2013 7:58:12	Content Tutoring, Study Lab, Test Prep	4	4	4	4	4	3	4	3	3	3	I think there is a lot of focus on learning the material, which is helpful for the task at hand. This doesn't always translate to long-term learning. I wonder if there should be more of a focus on learning skills and techniques. I also think the program could benefit more from ensuring there are reviews of prior materials as part of the program.
6/18/2013 9:22:26	Content Tutoring, Test Prep	5	5	5	5	5	5	5	5	5	5	Michelle was great and very accommodating; always listened to my concerns and addressed them immediately. She responded to emails/texts in a timely manner.  Chava "saved" my daughter from failing Algebra 2. She pushed my daughter and had a lot of patience!!!  Both Chava and Michelle gave thorough summaries after each session - I was always aware of what was going on. Thank you, Peak!  P.S. Also, like the location. I have recommended Peak to many of my staff members and I know for sure two of them are utilizing your services. Also, teachers have referred your service to parents of their students.
6/18/2013 14:35:14	Academic Coaching	5	5	5	5	5	5	4	4	5	4	Josh was a great help to Avery. She finished better than we thought and it is all thanks to Peak and the help she received from Josh. Thank you! We will be contacting you for support during the next school year.

6/20/2013 22:44:40	Content Tutoring	5	5	5	5	3	4	5	5	5	5	<p>My son, Max, ADORES Diane, and so I. She not only helped him with Spanish, but was constantly working with him to build his self-confidence. She believed in him, and that helped him believe in himself, even though languages are very difficult for him. I can't imagine a better tutor or cheerleader for my son. She's smart, compassion, and took the time to figure out how to best teach Max according to his learning style. She was great at communicating his progress to me as well. I came to see her as a valued partner in helping my son learn to be the best person and learner he can be. We hope to use her next year when Max transfers to French I.</p> <p>He also had Josh for Chemistry a couple of times. Did a great job of explaining complicated topics. Max got an A- (missed an A by one-tenth of a point) first term and a strong A- second term in GW's notoriously difficult sophomore chemistry class, so he was very pleased.</p>
